

Hosted Lync - Secure Instant Messaging

Microsoft Lync® Secure Instant Messaging from FSI Cloud provides instant messaging, voice and video conferencing, meetings, and shared whiteboard sessions, from a PC.

FSI Cloud hosted Lync, Secure Chat and Conferencing is a powerful collaboration tool designed for businesses with remote employees and multiple offices. SharePoint provides you with business-grade instant messaging – a great communication and collaboration tool. You and your employees can manage instant messaging, voice chat, video chat, meetings and shared whiteboard sessions right from your PC. Your Instant communication takes place through our hosted Lync servers which are hosted in highly secure data Centres.

BUSINESS BENEFITS:

Instant Messaging:

Chat with colleagues securely, in any office.

Rich Presence Capabilities:

Microsoft Lync® provides immediate, visual indicators of colleague status for chatting, chat, i.e. available away and busy etc. This status is automatically updated based on your Outlook calendar, displayed across all Microsoft Office® applications.

Screen Sharing:

Share documents or applications for communicating ideas instantly, ensuring work is completed faster more efficiently.

Group Chat:

When combined with desktop sharing. Group Chat is a powerful tool to drive information sharing across your business, particularly beneficial to employees located in different offices.

Voice & Video Chat:

Chat sessions can easily transition to face-to-face meetings with a single click, instantly improving collaboration.
