

SHARESYNC

Business-grade file sync and share service that meets the needs of both users and administrators.

ShareSync file sync and share service enables easy, intuitive collaboration and mobility while keeping company data secure and protected. ShareSync keeps files and folders in sync across virtually every device—and makes it simple to share those files inside and outside of the company.

For employees, ShareSync will enable them to become more collaborative and more mobile. Business owners and managers will like ShareSync because the comprehensive security features, permissions-based sharing and 99.999% uptime guarantee mean high levels of control, security or reliability.

Sync files and folders across virtually every device

- Syncing happens automatically the moment a file modification occurs
- Offline work on PCs is synced when a user comes back online
- ShareSync apps available for Mac®, Windows®, Windows Phone®, iPhone®, iPad®, Android™, BlackBerry®
- Content also accessible through any modern web browser

Share with recipients both inside and outside the company

- Intuitive sharing interface is integrated with your corporate address book
- Users can set sharing permissions (Co-Owner, Modify, View) and change them at any time
- Sub-folders can be shared with different permissions than parent folders
- Quick group sharing with Exchange Distribution Lists
- Files can be shared via web-link to any recipient, even if they don't have ShareSync installed
- Co-edit and share directly from Outlook and Office with easy-to-enable Windows plugins

Integrate ShareSync with your current IT environment

- Leverage your Active Directory settings for password authentication and to also share directly from your corporate directory
- Share directly from within Outlook and Office through easy-to-enable Windows plugins
- ShareSync integrates with the desktop for Windows, finder for Mac, and mobile operating systems

Keep content secure and protected

- Data is encrypted at-rest and in-transit
- An account-specific unique security key provides additional data protection
- Sharing permissions and access are strictly controlled and easily amended at any time
- Admin File Management, exclusively from ShareSync, provides additional management features to ensure visibility and control over a company's file sharing environment
- Remotely wipe ShareSync data on lost or stolen devices
- An Audit Log keeps track of the ShareSync activity on your account
- Reliability is assured with a 99.999% uptime guarantee

SEE HOW SHARESYNC COMPARES TO OTHER COLLABORATION SOLUTIONS:

Type of Service	Example	Why ShareSync Wins
Free Collaboration Services	Dropbox, Box, Hightail	ShareSync offers greater security, control, and integration.
Traditional sharing tools	Email and attachments, file servers, FTP servers, SharePoint	ShareSync is easy to use for employees and external collaborators and offers more efficient sharing and collaboration.
Collaboration services available through other Cloud Suites	Microsoft Office 365 and OneDrive; Google Apps and Google Drive	ShareSync offers a high degree of security, control, and integration, plus a 99.999% uptime SLA.
